Summary

Computer Science undergraduate at AIUB and Full-Stack Developer with hands-on industry experience as a Software Engineering Intern at AuraDev, contributing to GrantOS across backend and frontend. Skilled in TypeScript, React, Next.js, FastAPI, and PostgreSQL, with a research publication accepted at PECCII 2026.

Skills

- **Programming Languages:** C, C++, Java, C#, Python, JavaScript, TypeScript, Kotlin
- **Frontend:** HTML, CSS, React.js, Next.js, Tailwind CSS
- **Backend:** PHP, NestJS, FastAPI
- **Databases:** MySQL, PostgreSQL, MongoDB
- **Tools:** Git, Docker, Postman, Linux, Android Studio, Firebase, Vercel, Render

Experience

AuraDev | Software Engineering Intern June 2026 - Present

- Contributing to **GrantOS** as part of a professional agile engineering team, involved in end-to-end product development across the full stack.
- Developing and integrating backend REST APIs, handling business logic, and connecting services to the frontend application.
- Building and refining client-facing frontend features using modern web technologies in a real-world product environment.
- **Technologies:** TypeScript, React, NextJS, FastAPI, PostgreSQL, Prisma

Projects

MessMaster | Full-Stack Web Developer GitHub

- Designed and developed a full-stack application to manage meal tracking and shared expenses.
- Implemented role-based authentication and secure REST APIs using NestJS.
- Built responsive UI using React and Next.js with PostgreSQL as the primary database.
- **Technologies:** TypeScript, React, Next.js, NestJS, PostgreSQL

Clinic Management System | Full-Stack Developer GitHub

- Developed a web app for scheduling appointments and prescriptions management.
- **Stack:** HTML, CSS, JavaScript, PHP, MySQL.

Papers and Publications

- **Al Amin Hossain Nahid**, Ferdus Hossain, Tariful Islam Fahim, and Salman Zzoha. “Intelligent Waste Classification for Sustainable Urban Development: A MobileNetV3-Based Deep Learning Approach Using the BDWaste Dataset.” To appear in *Proceedings of the International Conference on Power, Electronics, Communications, Computing, and Intelligent Infrastructure (PECCII 2026)*, Jhenaidah, Bangladesh, 2026.

Education

American International University-Bangladesh Sept 2022 – Present
B.Sc. in Computer Science and Engineering **CGPA: 3.64/4.00**
